Yes, the safety meeting will be held at the gate before we enter the site.

Direction to the site:

1. Head east on I-10 to Channelview.
2. Exit at Monmouth located just west of San Jacinto River.
3. Turn left at Monmouth Dr. & go under I-10.
4. Go north past feeder road on north of I-10 & turn right on Lincoln St (next street past feeder). Do not turn right on feeder –it's one way going west there.
5. Lincoln joins feeder & continue east on feeder to gate at site entrance.

See you there!

Thank you, Gary. I plan to attend the site visit. Will the safety meeting be held at the site? Would you please send the directions to wherever we are meeting? I haven't been to the site in a long time!

Subject: San Jacinto Sampling Meeting & Site Visit

Folks,

I would like to invite you to a technical meeting to discuss a sampling program for the San Jacinto site. The goal will be to develop an approach for collecting additional data on pore water within the cap and river sediment, as well as groundwater and San Jacinto River surface water. The meeting will be held at the Harris County Pollution Control Services Office (101 South Richey, Pasadena, TX) on Thursday 6/11/2015 from 1:00 to 3:30 pm.

In addition, I will be going to the San Jacinto Site Thursday morning at 10:30 am prior to the meeting for a visual inspection of the cap over the waste pits, so you are invited to join me at the site if you wish. There will be a brief safety meeting prior to entering the site.

Please let me know if you will be able to attend the meeting and the site visit.

Regards,

Gary Miller
